Technical Specification

- SIM card holder integrated
- 3V SIM Interface
- Activity Status LED Indication
- Power Output: Class4 (2W @ EGSM 900/GSM 850)
Class1 (1W @ GSM 1800/1900)
- Normal operation temperature: -20 to 55°C
- Operating Voltage : 5 to 25 VDC
- Typical idle mode supply current: 5mA
- Baud rates: 300-115200 bits/s
- Compliant with ETSI GSM Phase 2 +
- Control via AT commands (GSM07.07 & 07.05)
- GPRS Coding Scheme: CS1, CS2, CS3, CS4

Design

- Metal Casing
- Weight 2.0kg With Standard Size

SMS / MMS Specification

- Text and PDU mode
- Cell broadcast
- Point to Point MO and MT

Fax Specification

- Group 3 (Class 1,2)

Supported Operating System

- Windows 2000, NT, XP, Vista,
Linux (Kernel 2.0.x , 2.2.x , 2.4.18 ,
2.4.19 , 2.4.20)

Included Accessories

- 1.5m USB Cable

Power Adaptor

8 Antennas

Connect using power cable. Suitable for desktop pc users !
